

## Scientific Program

<b>Friday, November 17</b>			
08:00	Registrations		
08.50	Welcomme message - Constantinos Stefanidis, Adrian Lungu		
	<b>1<sup>st</sup> session - LUPUS</b> <i>Chairs: Todor Arsov, Constantinos Stefanidis</i>		
09:00	Session introduction + Speakers	Todor Arsov	China
09:05	SLE and genes, a perspective of a genomic immunologist CPI/CACPI and collaboration	Carola Vinuesa	Australia
09:20	Genomics in autoimmune disease	Carola Vinuesa	Australia
09:50	SLE / inflammation - and the kidneys; a perspective from a clinical immunologist	Marija Jelusic	Croatia
10:15	The "other" side of personalized genetics/genomics	Todor Arsov	China
10:35	LUPUS Nephritis - the pathologist perspective	Mihaela Gherghiceanu	Romania
10:55	<i>Discussion</i>		
<i>Coffee break</i>			
	<b>2<sup>nd</sup> session – Complement and Kidney disease</b> <i>Chairs: Zoltan Prohaszka, Tanja Kersnik Levart</i>		
11:30	Romanian outbreak of E Coli O:26 Hemolytic Uremic Syndrome	Mihaela Balgradean	Romania
11:50	Complement in Kidney Disease	Zoltan Prohaszka	Hungary
12:10	C3 glomerulopathy	Tanja Kersnik Levart	Slovenia
12:30	Eculizumab treatment in aHUS – Romanian Experience	Adrian Lungu	Romania
12:50	<i>Discussion</i>		
<i>Lunch break</i>		<b>POSTERS</b>	
	<b>3<sup>rd</sup> session – CKD, HTA, Renal Transplant</b> <i>Chairs: Adrian Covic, Liliana Garneata</i>		
14:30	Current Concepts and Management Strategies in Chronic Kidney Disease-Mineral and Bone Disorder	Adrian Covic	Romania
14:50	Hypoproteic diets seem to delay dialysis in CKD patients. Is it valid for children?	Liliana Garneata	Romania
15:10	Challenges in histocompatibility and immunogenetics for kidney transplantation	Ileana Constantinescu	Romania
15:30	Vascular Access in Children on Hemodialysis	Constantinos Stefanidis	Greece
15:50	Practical point of pediatric hypertension management	Stella Stabouli	Greece
16:10	<i>Discussion</i>		
<i>Coffee break</i>			
	<b>4<sup>th</sup> session - Glomerular disease</b> <i>Chairs: Fatih Ozaltin, Francesco Emma</i>		
16:30	Genetics of Nephrotic Syndrome	Fatih Ozaltin	Turkey
16:50	Immunology of the Nephrotic syndrome	Francesco Emma	Italy
17:10	Henoch-Schonlein Purpura nephritis - what's new?	Brankica Spasojevic	Serbia
17:30	<i>Discussion</i>		
<i>Dinner</i>			

**Saturday, November 18**

<b>5<sup>th</sup> session – Tubular and metabolic kidney disease</b> <i>Chairs: Francesco Emma, Sevcan Bakkaloglu</i>			
09:00	The kidney and mitochondrial cytopathies	Francesco Emma	Italy
09:20	Critical Care Nephrology - Biomarkers	Mihai Popescu	Romania
09:40	Metabolic Causes for Nephro-lithiasis	Danko Milosevic	Croatia
10:00	Primary Hyperoxaluria	Sevcan Bakkaloglu	Turkey
10:20	Genetics of Nephrocalcinosis	Velibor Tasic	Macedonia
10:40	<i>Discussion</i>		
<i>Coffee break</i>			
<b>6<sup>th</sup> session– Tubular and metabolic kidney disease</b> <i>Chairs: Katharina Hohenfellner, Elena Levtchenko</i>			
11:30	Diagnostics and Genetics in Nephropatic Cystinosis	Katharina Hohenfellner	Germany
11:50	Practical experience of Nephropatic Cystinosis in Slovakia	Ludmila Podracka	Slovakia
12:10	Genetic and pathophysiology of renal Fanconi syndrome	Elena Levtchenko	Belgium
12:30	Barter and Gitelman syndromes	Varvara Askiti	Greece
12:50	<i>Discussion</i>		
<i>Lunch break</i>		<b>POSTERS</b>	
<b>7<sup>th</sup> session – UTI, CAKUT</b> <i>Chairs: Constantinos Stefanidis, Erik Van Hoorde</i>			
14:30	VUR: from the Nephrologist to the Surgeon. Who gets it first?	Bogdan Dima Erik Van Hoorde	Belgium Belgium
15:10	Renal parenchyma damage in the first febrile urinary tract infection and the TNF, ACE, PAI1 and MTHFR genes	Danka Pokrajac	Bosnia and Herzegovina
15:40	How to prevent the development of renal scars in children with febrile urinary tract infections	Constantinos Stefanidis	Greece
16:00	<i>Discussion</i>		
<b>Conclusions and closing remarks</b>
